The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 14-19 are rejected under 35 U.S.C. 102(a) as being anticipated by Heederik (WO 02/062894).

Heederik discloses, in example 9, a dye receiving coating dispersion comprising an aliphatic polyether polyurethane (NeoRez 600), a silica dispersion (Sylojet), an anionic wax emulsion (Aquacer) and an aziridine crosslinker (CX-100). At the top of page 27, he lists the same wax used in the example of the invention.

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.
